

TRAIN AS IF YOUR LIFE
DEPENDS ON IT

BECAUSE IT DOES!

16-17 JUNE, 2022

**SOUTHWEST VIRGINIA
FIREFIGHTERS ASSOCIATION
CONFERENCE TRAINING**

1901 Meadowview Parkway, Kingsport Tennessee, 37660.

As host of the 2022 Conference, the **Blacksburg Fire Department** is pleased to welcome Deputy Chief Phil Jose of Seattle Washington as a guest instructor at our conference. Phil Jose is a Deputy Chief of Operations and Shift Commander in Seattle Fire Department with over 30 years' experience. He has been teaching at major national conferences, including FDIC, since 2004. Phil is the co-author of "Air Management for the Fire Service" (Pennwell 2008) as well as other book and video products. Phil is also the recipient of the FDIC Tom Brennan Training Achievement Award. This is a great opportunity to attend two of his classes in the same location.

REGISTRATION INFORMATION TO FOLLOW

The Art of Reading Smoke: Through dynamic teaching and the use of fire-ground video, attendees will learn the skill of reading smoke. You will learn about the attributes of smoke including volume, velocity, density and color. Explore how those attributes will indicate fire size, fire location and predict fire behavior. Improve your strategic and tactical decision-making through Reading Smoke. The course was originally developed by Chief Dave Dodson who selected Phil as an adjunct instructor for the Reading Smoke curriculum after teaching with Phil at FDIC.

Tactical Decision-Making: This is a highly-interactive and informative course where students learn to achieve rapid, accurate solutions to fireground problems. Using fire-ground video, Recognition-Primed strategies and a question based approach, Phil's interactive style engages students in the decision-making process, where they will learn to identify the strengths and weaknesses of their tactical plans.
